NEW ADVANTAGES

# PLATFORMER<sup>®</sup>

**G. MONDINI**

## HOW THE SYSTEM WORKS

OUTPUT 120 PPM

NEW CONCEPT

## THERMOSEALER

Today's packaging line world is divided into either thermoforming or tray sealing lines, the first producing value packs, the second higher quality packs with greater flexibility.

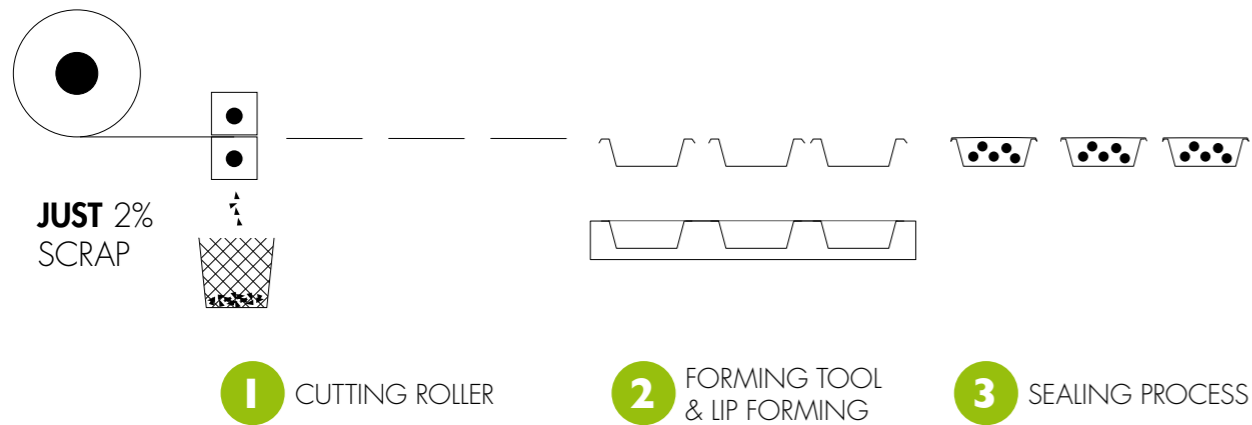

### Platformer is the missing link.

Combining the Mondini Trave with the Mondini Platformer your packaging line becomes what could be defined as a thermosealer... **giving the best of both Worlds.**

The unique LIP forming done during the platforming process generates **platformed trays** of outstanding quality.

Free to switch from thermoformed in-line trays from a reel or premade trays at any moment in time during production, according to the needs of your business.

## TWO COMPONENTS CHANGE OVER

NEW TECHNOLOGY

## REVOLUTIONARY

Forming trays on demand, in line, from a reel.

Platformer new technology revolutionizes the concept of tray forming by cutting the tray footprint before the forming process occurs, reducing the **scrap to just 2%**. An additional benefit of this innovative process is that the tray format **change over time** is less than **10 minutes** with only two components needing to be changed, at a **cost** which is a **fraction of a standard thermoformer**.

Depending on market conditions, customer demands and needs of the business, processors will have full flexibility to choose whichever solution is most beneficial to them at the time.

NEW ADVANTAGES

## TANGIBLE ADVANTAGES

- Trave and Platformer combined together deliver the ultimate packaging line driving down the cost and extending pack tying.
- Base tray waste of just 2%.
- Simple, fast tray format change over.
- In-line, on-demand feeding.
- Quick reel change over.
- Whether using trays made in line or pre-made, the line is designed in such a way that the product can be filled either automatically or using skilled staff.
